Summary

Full Stack Developer with 1 year of experience in building scalable web applications using React.js, Node.js, Express.js, PostgreSQL, and Tailwind CSS. Skilled in developing responsive UIs, RESTful APIs, authentication, and role-based access control, with hands-on experience in HRMS, CRM, and business management systems.

Key Skills

- HTML5 • CSS3 • Tailwind CSS • JavaScript • React.js • Node.js
- Express.js • PostgreSQL • MongoDB • Sequelize ORM • Prisma ORM • REST APIs
- Bootstrap • Redux Toolkit • JWT • RBAC • Git • GitHub • Postman

EXPERIENCE

Immortal Technovation

Full Stack Developer

11/2025 - Present

- Developed and maintained scalable web applications using React.js, Node.js, Express.js, PostgreSQL, and Tailwind CSS.
- Designed and implemented secure RESTful APIs, authentication, and role-based access control (RBAC) for enterprise applications. Implemented continuous integration and deployment practices, leading to a 50% reduction in deployment times and fewer rollbacks.
- Built complete HRMS, CRM, and Project Management modules, including user management, task management, lead management, attendance, payroll, and dashboard systems.
- Collaborated with designers, QA engineers, and backend developers in an Agile environment to deliver scalable, high-quality software.
- Developed dynamic dashboards with analytics, charts, notifications, and workflow automation to improve business operations and decision-making.

Code Yogi

Web Developer Intern

06/2025 - 11/2025

- Assisted in developing responsive web applications using HTML5, CSS3, JavaScript, React.js, and Bootstrap/Tailwind CSS. Optimized database queries on SQL Server, reducing data retrieval times by 40% and supporting business analytics.
- Created responsive dashboards with data visualization, reports, and real-time updates to improve user experience.
- Built reusable UI components and integrated them with RESTful APIs.
- Collaborated with senior developers using Git/GitHub and participated in Agile development, debugging, testing, and code reviews.
- Developed backend features using Node.js and Express.js for CRUD operations and user authentication.

Education

Veer Madho Singh Bhandari Uttarakhand Technical University (UTU)

Uttarakhand

Bachelor of Technology (Computer Science & Engineering) - CGPA - 7

08/2022 - 06/2025

Uttarakhand Board of Technical Education

Uttarakhand

Diploma in Computer Science & Engineering – CGPA – 8.85

8/2019 -06/2022

Courses

- Full Stack Web Development – CodeYogi
- JavaScript Course – Udemy

Projects

Solar CRM & Lead Management System

Built a Solar CRM application with lead management, workflow automation, and role-based access for Sales, Support, Finance, Liaison, and Installation teams.

Developed analytics dashboards, document management, and optimized backend APIs and database queries for enhanced system efficiency.

Enterprise Resource Planning & Customer Relationship Management System

- Developed a Recruiter CRM System for lead management, workflow automation, and role-based access control.
- Implemented installation tracking, document verification, dashboards, and optimized APIs for enhanced performance.
